Professional Summary

Computer Science undergraduate with hands-on experience building full-stack web applications using React.js, JavaScript, Node.js, Express.js, REST APIs, SQL and Supabase. Strong foundation in OOP, DSA, DBMS and software engineering. Hands-on exposure to AI-powered application development through projects involving LLM APIs, AI agents, LangChain, LangGraph and natural-language search. Interested in building practical AI-enabled products while continuing to deepen AI engineering expertise.

Education

B.Tech in Computer Science and Engineering

Rajiv Gandhi University of Knowledge Technologies, Nuzvid, Andhra Pradesh

2023–2027

CGPA: 8.975

Experience

Web Development Intern

Labmentix

Jun 2025–Jan 2026

Remote

- Developed full-stack web applications under mentor guidance using React.js, HTML, CSS and JavaScript.
- Designed, developed and tested RESTful APIs using Node.js and Express.js.
- Debugged and enhanced application features for reliability and maintainability.
- Used Git and GitHub for version control, collaboration and development workflow.

Web Development Intern (Summer Internship)

VaultofCodes

May 2026–Jun 2026

Remote

- Delivered the assigned responsive 4-page marketing website, EditKaro.in, using HTML5, CSS3 and vanilla JavaScript.
- Implemented a Google Apps Script backend to capture form submissions into Google Sheets, deployed the website on Vercel.

Projects

VaultIQ – AI-Powered Google Drive Search Assistant | *Python, Streamlit, FastAPI, LangChain, LangGraph, Groq* [GitHub](#) | [Live Demo](#)

- Built an AI-powered assistant for natural-language search across Google Drive files through a Streamlit interface.
- Integrated FastAPI, Google Drive APIs, LangChain/LangGraph workflows and Groq-hosted Llama models.
- Implemented filename, file-type, content, date and recursive folder search.

Synergy – Real-Time Collaboration Suite | *React, Node.js, Express.js, Supabase, Socket.IO, WebRTC* [GitHub](#)

- Individually built a full-stack collaboration platform combining workspaces, collaborative documents, taskboards, chat, video calls, whiteboard, file management, calendar and presence.
- Implemented real-time communication with Socket.IO/WebRTC and collaborative document editing with TipTap, Yjs, Y-ProseMirror and WebSockets.

Assignment Checker – AI-Assisted Academic Assessment Platform | *React, JavaScript, Supabase, REST APIs* [GitHub](#)

- Contributed to the frontend and database/backend API integration of a team-built academic assessment platform supporting assignments, submissions, results, notifications and analytics.
- Contributed to integrating AI-assisted semantic answer evaluation and ML-based plagiarism detection developed within the team.

Technical Skills

Languages: Python, JavaScript, SQL, C#

Frontend: HTML5, CSS3, React.js, Tailwind CSS, Vite, Streamlit

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, SQL, Supabase

AI / GenAI Exposure: LLM APIs, AI Agents, LangChain, LangGraph, RAG concepts, Embeddings, Semantic Search

Tools: Git, GitHub, Postman, VS Code, Render, Vercel, Cloudinary, Google Cloud Console

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering

Certifications & Achievements

- AI – Search Methods for Problem Solving (IIT Madras, 69%)
- Cloud Computing (IIT Kharagpur, 69%)
- Foundations of Deep Learning (IISc Bangalore, 73%)
- OOAD Using UML, Java and Patterns (IIT Kharagpur, 70%)
- Solved 240+ DSA problems on LeetCode
- Top 4 Team – Smart India Hackathon (SIH) Internal 2025
